STEP 1

Place the **DRESSER (1)** upside down to easily access the bottom. Attach the **LEGS (2)** by rotating each one clockwise until firmly tightened. Repeat this step for all legs.

STEP 2

The **LEVELING GLIDE (A)** is located at the bottom of the **DRESSER (1)**. Once the furniture is placed in the desired position, you can adjust the leveling glides based on the surface. Ensure the dresser is level and stable. Once it is properly leveled, the assembly is complete.
