## STEP 1

Place the **NIGHTSTAND (1)** upside down to easily access the bottom, then attach each **LEG (2)** by rotating it clockwise until securely tightened. Repeat this process for all legs.

## STEP 2

The **LEVELING GLIDE (A)** is located at the bottom of the **NIGHTSTAND (1)**. Once the furniture is in the desired position, you can adjust the leveling glides based on the surface to ensure the nightstand is level and stable. When the nightstand is properly leveled, the assembly is complete.
