STEP 1

Select the area on your wall where you would like the top of your frame to be placed.

STEP 2

Measure down 2 inches from that placement to allow for the length of the WallBuddies and mark the spot with a pencil.

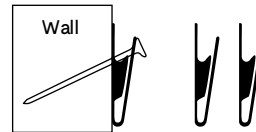

STEP 3

Place the first hook against the wall and hammer the nail through the holes at a downward angle.

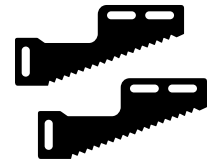

STEP 4

The WallBuddies hangers on your picture have arrows indented in them. Measure between the 2 arrows and mark that measurement on your wall from the first hook you hammered.

STEP 5

Place the second hook against the wall and hammer the nail through the holes at a downward angle.

STEP 6

You are now ready to hang your picture. Place the wall art over the WallBuddies hooks. With a slight lifting motion, slide the frame to the left or right to make any minor adjustments necessary to level the frame. (A note to be sure to hang art out of reach of small children.)
